

ZERO WASTE, LIMITLESS CREATIVITY: RECYCLING LABORATORY AND ART PROJECT

Funded by
the European Union

ZERO WASTE, LIMITLESS CREATIVITY: RECYCLING LABORATORY AND ART PROJECT este un proiect eTwinning care se desfășoară în perioada februarie-iunie 2025. Acesta este rezultatul unor colaborări mai vechi între fondator (Turcia) și co-fondator (profesor Onose Cătălina, Liceul de Turism și Alimentație „Dumitru Moțoc” Galați, România). Partenerii sunt din cinci țări: Turcia, România, Italia, Grecia, Polonia.

Proiectul a promovat lupta împotriva schimbărilor climatice și principiul *zero deșeuri*. Am realizat activități dezvoltând creșterea încrederii în sine și creativitatea. Proiectul a inspirat o transformare în care deșeurile au devenit fundamentul unei creativități fără limite. Elevii au îmbrățișat filozofia zero-deșeuri, învățând cum să le reutilizeze în cluburile eco, creând piese de artă din hârtie aruncată. Au explorat modalități inovatoare de a îmbina durabilitatea cu arta, promovând creativitatea. El a urmărit să îndrume elevii în a deveni indivizi conștienți de mediu, care pot aborda provocările de durabilitate cu soluții inventive și artistice. Am stabilit legături om-om/natură. Ne-am îmbunătățit abilitățile de comunicare în limba engleză și am utilizat instrumente web 2.0. Am diseminat activitatea prin participarea la simpozioane, realizarea de video-uri publicate pe pagina școlii. Am răspuns chestionarelor elaborate și în cele din urmă am realizat evaluarea proiectului.

Iată câteva imagini de la activitățile desfășurate în cadrul acestui proiect.

I'm so happy to be a member of the Zero Waste project. This journey has been an amazing experience for me both as a teacher and as a lifelong learner. Through this project, I had the chance to raise awareness about environmental issues, especially the importance of reducing waste and protecting our planet. Working with students on eco-friendly
